Proposed Conference

Nuclear Proliferation Intelligence Through the 1980s

[REDACTED] 24-26 June 1981)

25X1

Purpose of Conference

To provide the opportunity for policy people--especially those who are newcomers in their jobs--to concentrate attention on what is being done on the intelligence side, how well, and changes that might be made. We will be trying to build a common understanding of the main issues in planning policy, conducting assessments and directing collection activities. (A similar approach was taken a year ago at a conference at [REDACTED] devoted to nuclear security and proliferation-related issues in the Near East and South Asia.) Policy officials at the level of assistant secretary and below and intelligence analysts and collectors are invited to attend the conference.

25X1

Admiral B. R. Inman, Deputy Director of Central Intelligence, will open the conference as the keynote speaker.
